Farewell evening La Locanda di Baccalamanza

Because of the large group of participants and people with food allergies/wishes, we have organized tables per country/language group for the diner part of the event. You can choose your table/place within the table range for your country/language. **People with food allergies or specific food wishes have to be seated at their indicated table.** You find your table or table range in your personal data on the congress website (**PERSONAL INFO > MY PERSONAL DATA**). No problem if you exchange places with other groups, except if you indicated a food allergy/wish during your registration. Thank you for your understanding!
